#100217 2 "Off the Grid" Ocean View Homes

Two homes tucked in the tranquil mountains near Tinamastes overlooking the beautiful valley of San Juan de Dios with the deep blue of the Pacific in the distance. This property has great investment potential, for someone wanting to update the houses and sell them individually. The owner is offering the entire place with both houses or will consider selling only one house for considerably less. 7.4 acres with land on both sides of the road Amazing valley and ocean views Beautiful spring fed creek The climate is ideal with warm days and cool nights 5 minutes off of the paved road between Dominical and San Isidro The houses are of very solid construction, but in need of cosmetic facelift The current owner has enjoyed a lifestyle of tranquility and seclusion which included no utility costs whatsoever. This place has always been "off grid" but a new neighbor has had electric installed in front of the homes, and is improving the road. The houses could easily be outfitted with electricity and other modern conveniences.
